

COLCHESTER MASCOTICO

HIGH PERFORMANCE-LOW COST LATHE

- Rigid and super-accurate main spindle, mounted on Gamet Micron precision bearings. Roundness accuracy greater than 0.0001" guaranteed.
- Headstock gears induction hardened and profile ground.
- Bed slideways induction hardened and ground.
- * Apron control of headstock clutches.
- * 8 in. D.1. Camlock spindle nose mounting.

The Colchester Mascot 1600 8½" Centre Lathe is a precision machine built up to a specification—not down to a price. It is exceptional value for money—achieved by Colchester's unique high volume flow-line production techniques.

With a 17" swing, varying bed lengths (40", 60" and 80" between centres), universal gearbox, a range of sixteen spindle speeds (20-1600 r.p.m.), this heavy duty machine gives three-way lathe value — in precision, economy, and long life.

It is a big lathe with big lathe features. Rugged and versatile. In the Toolroom, for small batch production, maintenance, and training purposes, the Colchester Mascot 1600 has been designed to provide long life precision.*

The machine illustrated is the 80" between centres gap bed model (Splashguard is optional extra equipment).

* See overleaf for full specification

COLCHESTER MASCOTIOO

COLCHESTER MASCOTICO

SPECIFICATION								
Height of Centres	8 <u>1</u> in.	216mm	THREADS					
Swing over bed	17in.	433mm	No. of Whitworth threads	38				
Swing over cross slide	10½in.	267mm	Range of Whitworth					
GAP BED MODELS Swing in gap Width in front of faceplate	28in. 8 <u>1</u> in.	711mm 216mm	No. of Diametral pitches	2 t.p.i 72 t.p.i.				
Spindle bore (max. bar dia.)	3in.	76mm	Range of Diametral	8-60 D.P.				
Spindle nose mounting	8 in. D.1. Camlock		No. of Metric pitches	40				
Taper in spindle nose bush	No. 5 Morse		Range of ,, ,, No. of Module pitches	0·4-14mm 18				
Taper in Tailstock barrel	No. 5 Morse		Range of ,, ,, 0.3-3.5mod.					
Width of Bedways	13½in.	343mm						
Total travel of cross slide	11in.	279mm	FEEDS					
Total travel of top slide	6in.	152mm	Range of sliding feeds					
Total travel of tailstock barrel	9in.	229mm	per rev. of spindle	0.002 in				
No. of spindle speeds	16			0.032 in. 0.05-				
Range of spindle speeds	20-1600 r.p.m.			0.80mm				
Overall height of machines	52in.	1321mm	Range of surfacing	0.001 in				
Drive	Motor via Belts & Pulley		feeds per rev. of spindle	0.016 in. 0.025- 0.40mm				
Motor	7½h.p.			0.40mm				

MODELS AVAILABLE

CODE WORD	BED TYPE	DISTANCE BETWEEN CENTRES	OVERALL LENGTH OF MACHINE	OVERALL WIDTH OF MACHINE	WEIGHT
Mascot 1600 Forty-Straight	Straight	40 in.	98 in.	42 in.	4500 lb.
Mascot 1600 Forty-gap	Gap	1m	2520mm	1070mm	2040kg
Mascot 1600 Sixty-Straight	Straight	60 in.	118 in.	42 in.	4700 lb.
Mascot 1600 Sixty-Gap	Gap	1½m	3030mm	1070mm	2130kg
Mascot 1600 Eighty-Straight	Straight	80 in.	138 in.	42 in.	5040lb.
Mascot-1600 Eighty-gap	Gap	2m	3535mm	1070mm	2290kg

STANDARD EQUIPMENT & ACCESSORIES

STANDARD EQUIPMENT Slotted toolblock · Driving plate · Centre bush · Two No. 5 Morse Taper centres · Thread indicator (Not on metric machines) · Electrical equipment for standard 3 phase 50 cycle A.C. supply · Set of spanners and keys · Oil can · Instruction and spare parts manual · Accuracy chart

ACCESSORIES Hydraulic profiling attachment · High speed threading attachment · Telescopic taper turning attachment · Toolposts: Four-way Automatic indexing or Quick-change · Rear Toolposts: Standard or Quick-change · Chucks: 12in. three jaw Geared scroll or 16in. four jaw Independent, direct on spindle mounting ductile iron chucks (Note: It is dangerous to use grey cast-iron chucks on these high speed lathes) · Stationary steady · Travelling steady · Bed stops; Single, Five-position or Micrometer type · GMT Rotating centre · Face plates: 17 in. dia. or 27 in. dia. (for gap bed lathes) · Electric coolant pump, tank and fittings · Chip guard · Chuck guard · Full length splashguard · Low volt lighting unit

Illustrations and specifications are not binding in detail.
